

You are invited to the introductory course in

RAPHAOLOGY™ Medicine

the Indigenous Natural Healing Art of

Peak Frequency Healing

using plant medicine for awakening your awareness and restoring your
mental, physical and emotional powers to peak performance.

This is a once in a lifetime opportunity for you as either a practitioner or
interested individual to learn and increase your skills of healing and well
being by receiving a course of study that is unparalleled in teaching methods
and results.

A 40 hour educational experience to become a:

Peak Frequency Plant Herbalist

Whole Spectrum Nutritionist
Interactive Determination (I.D.) Therapist
Color Therapist

With this course of study achieved, you will be ready to practice as a fully
certified

RAPHAOLOGY Practitioner.

This course is designed for anyone with a desire to help family, friends, or associates by becoming proficient in herbal and nutritional medicines for your own edification or as a practitioner. The RAPHAOLOGY course of study enhances the work of health professionals who want to become more advanced and efficient in their work. Taught by Morning: Spirit: Wolf, Professor and Doctor of RAPHAOLOGY Medicine, this introductory course offers the collective experience developed by Jonathan: Thunder: Wolf-D.R.M. which combined spans over 45 years in the field of health where they developed a remarkable healing practice. Her effective method of guiding people toward restored health is now available through Universal College of Indigenous Medicine.

This course is state of the art in technique, energy, and practicality. Though not taught anywhere else in the world, this course information is excitingly new, but was practiced by our ancestors! In her counseling and healing work with patients she uses a combination of Light and Color Therapy, Interactive Determination (ID) Therapy, Peak Frequency Herbs, and Whole Spectrum Nutrition. This course will supply you with the heart and soul of RAPHAOLOGY procedures and prepare you to help others prevent and cure illness in the same manner.

Morning: Spirit: Wolf-D.R.M. teaches unique methods of healing arts:

- Light and how it affects our physical, emotional and mental body (each organ needs a specific color [energy form] to function properly),
- Receiving information regarding the condition of each organ through Interactive Determination Therapy (a method using reactive pressure point areas of the feet to identify conditions elsewhere in the body),
- How to communicate with the aura (electro-magnetic field) of the individual through I.D. Therapy

- The function of the body in relation to most deficiencies of nutrition and light,
- New knowledge about how specific herbs and foods carry light to light deficient organs,
- Which herb or food it is that supplies organs with specifically needed light for hormone and fuel production,
- The skill of communicating with someone; to understand where the most help is needed,
- Therapy to understand which herbs, minerals, vitamins, and colors he/she will benefit from

All plants are charged with light during photosynthesis process. Studies show that certain plants absorb specific colors from the sunlight, and when we ingest a plant, the vibration it carries is released into our system as life energy and travels to the needed part of the body. By communicating with the aura of an individual through reflex Interactive Determination Therapy one can easily come to an understanding of which light energy he/she is missing and which herb, food, vitamin, or mineral that will supply it and erase all deficiencies.

This course will teach how to build up the defense systems against the ever increasing attacks of “dis-ease” causing agents such as stress, acidity, pollution, radiation, viruses, bacteria, fungus, worries, traumas, and fears. The course of study will assist in becoming a stronger, happier and healthier person, which her experience has taught her are the ingredients of a successful being.

After this course you will be able to consult people about their ailments with a power you never thought was possible. This educational program, prepared by Morning: Spirit: Wolf-D.R.M. and her husband Jonathan: Thunder: Wolf-D.R.M. is designed to give you the education needed to self-heal and advance in your work as a Health Practitioner, a family member, or a caring friend.

Since this course is somewhat divided into both physical and emotional awareness she would like to draw your attention to the many times we live our lives without considering that we absolutely possess the power and freedom to create our own identity and live our dreams. In the creation of the soul, every being was given the keys to open up their “True Self”. Isn’t it time that we learn to use them?

Throughout this course the information you receive shows how to:

- Release mental shocks through the use of herbs, fruits, and mind activities,
- Booster mental powers with herbs and make it easier to remember, focus, understand, make decisions, and be inspired,
- Connect light centers of the body and their specific colors, feelings, and emotions,
- Strengthen light centers with fruits, meditation on colors, and animal energy communication,
- Use the powers of nature to heal,
- Understand the power of Creation within us all, expressing the power within in order to enjoy optimum health,
- Apply foods that increase the power of your individual sexuality as a male or female

Light and color are energies which have tremendous affects on our thinking, emotions and feelings. Every color is a fuel for certain mental and feeling processes. When we are lacking certain colors, emotions such as depression, stress, anger, loneliness, hate, addiction, laziness, and fear start to become a bigger part of our personality. These emotions are like lead weights around our ankles, inhibiting our progress and growth.

This course is designed to help you relieve yourself from the burden of all negative emotions and create an unlimited being, free to develop any mental power, extra-sensory gift, or physical ability that makes you feel more whole. As you open up towards the light, you can receive the strength to use your mind, as the powerful tool it really is, and with it choose the shape of your future. Discover the astounding European, American, and Indigenous research and its results on the effect of light and color in the psyche and how to use them to create joy in your life.

RAPHAOLOGY Course One **Course Schedule** Split
Weekends

1st weekend

Friday: 6:00pm-10:00 Light- Color- Vibration- Frequencies, the building
block of all creation.

Saturday: 10:00am-1:00 Hormones and Your Emotions

Please come to part 1 of class prepared with your schedule and availability to collectively plan for attendance at part 2.

RAPHAOLOGY™

Medicine Courses

RAPHAOLOGY 1

RAPHAOLOGY Practitioner Certification Training

This introductory course in RAPHAOLOGY Medicine will teach Light and Color Frequencies and the relationship to the hormone system; what it is, its response to peak frequencies, and how it affects your feelings and physical body. The digestive system and its organs being the key to vitality in neutralizing and balancing disease, stress and trauma. How to restore blood and lymph circulation and release environmental toxins and chemicals stored in tissues. Understanding and using Whole Spectrum Nutrition, Peak Frequency Herbs, and Interactive Determination Therapy as a tool to identifying specific organs and glandular light frequency deficiencies and what herbs and foods are needed to restore their balance and life force.

RAPHAOLOGY 2

Advanced Practitioner & Critical Care

The second course will provide training in Emergency Herbal healing comparable to emergency hospital rooms as an understanding of the 7 Levels of Trauma are applied to restore immediate health in erasing many death processes and traumatic stress. How to deal with bacteria, virus, tissue trapped toxins, intestinal fermentation, acidity, anaerobia, and parasites, and the dis-eases they produce. Weight and fear reduction using New Cellular Enzymatic Liquid Light (C.E.L.L.) Therapy are deeply delved into. Higher

frequency light and foods (including alpha and lipoic acids and alkaline foods), erasing the effects of household and environmental toxins. Pregnancy, infant and child care specialties are all herbally and nutritionally approached. All leading up to an advanced exploration of imagery meditation in preparation to experiencing communicating and relating to plants.

RAPHAOLOGY 3

Peak Herbal Preparations & Energy and Body Work

Course three provides hands on training in the preparation and production of peak herbal extracts, salves, ointments, crèmes, soaps, baths, poultices, plasters, liniments, and the like along with herbal ear candling arts. How to transfer healing energy by touch to establish a flow of healing exchange by way of hands and body through the skin. Learning the process of longevity through Crystal Geometric Harmonics and symbols, and psychic and physical energy work with Peak Energy Awareness Kinetics (P.E.A.K.) Therapy. Culminating to manifesting realities through understanding yourself as a light being able to use creative universal keys.

RAPHAOLOGY 4

Healing Arts with Rhythm, Movement, Sound & Color

Perhaps the most elemental course in the series, training in the use of tonal frequencies, indigenous musical rhythms, specialized movements, light colors, and messenger animals to achieve the integration of time and space. Altered reality experiences and the ability to use personal creation of motivation and excitement for a higher level of "fun" life experience are learned. Study of inter-racial genetics and their integration into our capabilities are applied with practical usability along with complete understanding of the use/purpose of electro-magnetic fields and their effects on life forms.

RAPHAOLOGY 5

Advanced Healing with Inter-Cultural Food Boosting

Course five is the food experience of a lifetime, for the body, mind and spirit. Because we become what we assimilate, foods that break addictions, neutralize acids and toxins, calm anger and aggressiveness, boost the immune system, plus more, that totally satisfy the eyes, the pallet, and the body are learned. Various cultures food specialties with tropical fruits, indigenous roots, and handmade cheeses, among others, are experienced. Differences between fats and proteins in cow's and goat's milk products, ice berg lettuce versus butter

lettuce, and replacing canola oils with olive oils, and a host of other great tasting, fun making, and immune fortifying foods will be experienced with hands on expertise in the kitchen. Be a great chef in the home or in the field.

RAPHAOLOGY 6

Indigenous, International, & Tribal Rights and Shamanism

In course six natural, ancient, and modern tribal and indigenous medicines of the body and soul are studied with emphasis on shamanism; the practice of life re-entry. Indigenous ceremonies and rites establishing that there are plants and foods that, when ingested, connect to other forms of self and other consciousness. The ability to recognize energy patterns and life forces of multi-dimensional beings through body art, meditation, etc. is taught along with an introduction to indigenous peoples cultural medicines and the practitioners ability to be comfortable as a visiting medicine man or woman. National, international, and indigenous laws and rights are presented as they relate to personal freedoms.

RAPHAOLOGY 7

Doctor of RAPHAOLOGY Medicine

Here in course seven, the doctorate degree, the finer arts of self expression for the practitioner and the patient are emphasized along with knowledge of how to let go of fears, past stresses and traumas, genetic programming, and learned programming. New patterns in ways to accept and enjoy your physical self are presented to allow full contact of feelings throughout the body. In depth study of allowing self healing as the responsibility of the one being healed, and abilities to write, lecture, and present professional experiences as a teacher or professor with ease. How to secure your professional right to practice, international laws governing doctor/patient relationships, and individual case studies are exchanged and learned.

All course considerations are \$800.00 per course, with the exception of RAPHAOLOGY III and RAPHAOLOGY V which are \$100.00 additional. Course considerations include lunches, curriculum, and all materials.
